## Vendor Tracking And Productivity App

Mobile App developed for the US Mortgage industry for Real-Time tracking of vendors and doc uploading.

## Challenge

To Capture market share, our client wanted to offer and promote Mobile Closing Services. This would enhance their business by: -

Increasing number of Closings

Decrease in the scheduling to disbursement time

Enhance vendor experience (vs competition)

## Key Features

Live (GPS) tracking of vendor

Real-time Document Uploads

Outlook Type Scheduling

## Technology Used

Android OS platform

SWIFT for IOS

Google Matrix API for Tracking
