

# EPR - Mobile & Web App

## Introduction

EPR India is a platform that caters to all producers and plastic recovery organizations (PRO) under the ambit of Plastic Waste Management Rules, 2016. The objective of the platform is to ensure the following:

- Protect Producers & Recycling Business from the restricting regulations.
- Fulfil Viability Gap across all plastic types.
- 100% Traceability of Material Flow in plastic producer and recycling network.
- Create Opportunities for start-ups, formalization and digital payment solutions.
- Create Transparency For All Stakeholders and Penalize the Defaulters.

## Broad Functionality

	Multiple User Logins		Recycling waste like a plastic, glass bottle, paper, rubber etc
	Buying and selling waste material.		Generate the certification for disposal plastic material

## Key Challenges

The Material & the Transaction flow has to match to issue the safe disposal certificate

Ineffective Use of Technology

Data inputs shall be done through Smartphones completely, making it independent of any devices.

## Key Features

Waste Reduction & Recycling

Reduce Man Power

## Technology Used
