Reflections and Insights- AAPNA Alumni

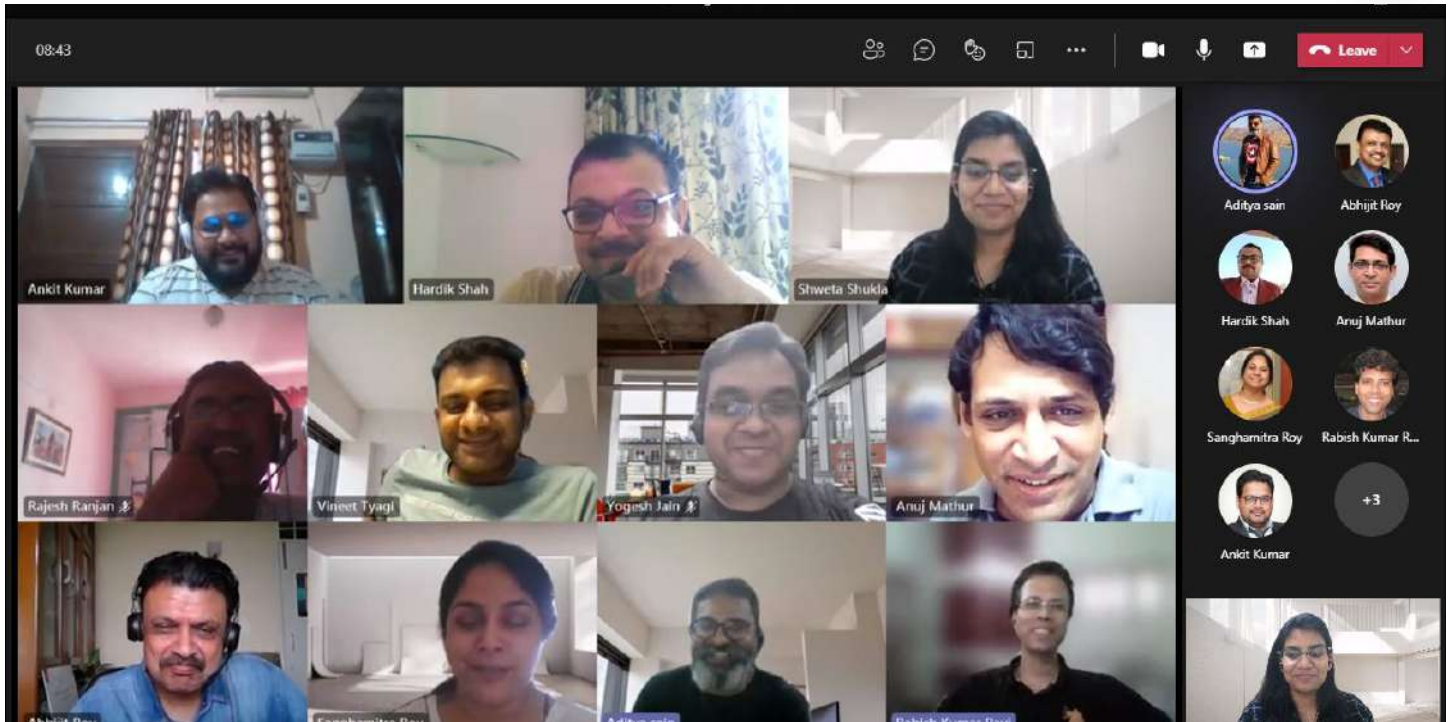

Yogesh Jain

It was an amazing experience while working with AAPNA family. The commando culture, open & candid environment, can do attitude, all in one package, indeed an unbelievable family. Lots of memorable projects & key achievements from first time delivery to ongoing tasks, but the one which I cherish the most is the IMPACT program. I got the opportunity to conceptualize and execute most of it. All thanks to Abhijit for believing in me (a sign of true leader) & fellow colleagues for supporting me all the way & by all means. I still hope the program will be giving fruits to all AAPNAites.

My stint of 2 years as an AVP with the firm, helps me not only grow professionally but also on a personal front. The personal touch, how to build trust in the system & colleagues, proactively grow & look for opportunities in future technology are some of the impacts I still carry with me. Those moments will remain forever with me.

Thanks to Abhijit, Sanghamitra and all AAPNAites for building such an amazing firm.

Reflections and Insights- AAPNA Alumni

Preeti Joshi

I was with AAPNA family for the past 5 years as a Sr. Software Test Engineer. During this tenure, there are so many stories to share but among those the one I can think of is when I was working on the Dario, MMH Mac App project where Dario D'urso was the product owner of the project. Since always he was very particular about every requirement. Until he was with the project, he didn't say anything but on his last day with the organization he sent an appreciation email for me to my onshore lead as well as to AAPNA notifying all the efforts made by Direct Connect team members from AAPNA which was really heart touching. After this our efforts were recognized in the Townhall meet which motivated us to do our work even with more zeal.

AAPNA is one of the company who always keep their resources on priority and the best thing about AAPNA is they follow open door policy which allows resources to feel more comfortable sharing their thoughts, ideas, or concerns directly with the upper management, ultimately promoting a sense of belongingness and collaboration within the organization. I had a wonderful time working with AAPNA and even now I feel that I am an AAPNAITE by heart. 😊

KR Nischal

As an Assistant Project Manager at AAPNA Infotech in 2020, I gained comprehensive project management experience within the PMO. This role exposed me to various methodologies and honed my skills in tracking tools like Teamwork and Power BI.

Collaborating with diverse teams like Business Analysts and Developers fostered strong coordination and my contributions were recognized. This experience solidified my belief in collaboration and data analysis. Power BI transformed raw data into insights for better decision-making, while teamwork fueled innovation. This synergy between data and collaboration, I believe, is key to success in today's data-driven world.

As I continue to evolve in my professional journey, I thank AAPNA for the invaluable experiences and learnings gained during my time here.

Tabassum Saifi

During my tenure as a Senior Frontend Developer at AAPNA from 2016 to 2022, I had the privilege of being part of several memorable projects.

Working at AAPNA profoundly impacted my professional journey, offering unparalleled growth opportunities and exposure to cutting-edge technologies. The company's culture of innovation fostered a fertile environment for skill enhancement, particularly in areas like React.js, Vue.js, node.js, .net and agile methodologies.

Contributing to multifaceted projects not only refined my frontend development expertise but also enhanced my mentoring abilities.

Nikhil BR

Hello AAPNA Commandos,
This is Nikhil BR an AAPNA Ex- Commando!
Greetings to you all! 😊

Moment becomes special and freeze whenever I start thinking of AAPNA. AAPNA gave me the Love, Respect, and Freedom of work to exhibit. The work from home journey with AAPNA not only gave the freedom to work from the comfort of my home, but it also taught to achieve more as a professional. It led me to understand more as a person and as a professional with all the work ethics and different resource engagements. My tenure with AAPNA was just a year, but fond memories are infinite. I was associated with Golf Tee Time Aggregator project, where the work and the challenge became so easy and is all because of my Great Team (I still miss each of them) and the management. What an energy to all of those superiors and HRs every one of them were super supportive in every step.

Got few awards like Aaj ka Baazigar, Rockstar of AAPNA! These were not just an award, but these are the real recognitions of the efforts put in and it does not end there, these ignites to achieve the next milestones.

In short, "AAPNA is the best place to experience your career."
So to all the commandos of AAPNA, enjoy being AAPNA Commando and the work culture here, best way to enjoy AAPNA is to engage yourself with AAPNA! Life will be good here. 😊

Hope to see you all again!
Cheers!

Devender Shokhanda

Joined AAPNA as DevOps Engineer from Nov 2019 to Dec 2022. At AAPNA, I have thrived as a DevOps Engineer for 3 years. During my tenure, I got a great opportunity to learn and grow with some of the great mentors, colleagues and it played a pivotal role in Azure DevOps with their support. Mentorship was amazing, especially the way Anuj Mathur supported me during my learnings and implementations.

My experience at AAPNA was exceptionally rewarding. I honed my DevOps skill set, spearheaded successful initiatives, and collaborated effectively within a dynamic team environment.

I will always say, a big thanks to AAPNA for training me like a COMMANDO.

Prince Kumar

I joined AAPNA as a fresher and worked as a Systems Engineer for 3.8 years, where I had the opportunity to learn and grow in my career. I learned the latest technologies (cloud, cybersecurity) under great mentors and leaders who supported me throughout my journey at AAPNA. I would like to thank Aasif Ansari, Anuj Mathur for being my mentors, and Abhijit and Rakhi for being great leaders and treating me like family.

I mostly handled internal work and received a lot of Instant Shabashees throughout my tenure at AAPNA (more than 60-70). I also received much appreciation from many people at AAPNA. AAPNA treated me like family and helped me learn a lot of things apart from technical knowledge.

While working at AAPNA, we had an open-door policy where even an associate could directly interact with the CEO, which gave me a lot of confidence in my professional life as it overcame the fear of talking with higher management. The learning curve was great as you are free to learn anything, and your manager supports you. I learned Cloud and moved my career towards DevOps. The learning from AAPNA is helping me in my current organization to perform each task with high standards, and I have received multiple client appreciations as well.

AAPNA will always be my second family, and I will always cherish the moments spent there.

Rohit Kumar Tanwar

AAPNA is a university with expert gurus and trustworthy friends.

When I joined, I knew nothing about my vertical, DESIGN.

When I left, I was an EXPERT :-)

I lived my **10 YEARS** of life with AAPNA and learned lots of things, those playing key roles in moving ahead in life. One thing I want to mention is that for me, AAPNA is NOT just a company: it's another home for me.

In terms of work, I had the privilege of collaborating with prominent corporations from the USA, UK, INDIA, and AUSTRALIA.

In conclusion, I consider myself lucky that I got the chance to join AAPNA and met lots of friends and experienced amazing learning in design. Thanks to **Mr. Abhijit** and the entire team, including **Chacha (Sadanand Pandey Ji)**, for making the days valuable.

Joginder Rohilla

As an Account Manager at AAPNA from February 2015 to August 2017, my tenure was marked by memorable projects and achievements that significantly contributed to my professional growth.

One of the highlights of my time at AAPNA was collaborating with prestigious clients such as the World Bank, C2Technologies, Onicra, and Vintage Rides.

Moreover, I was honored to receive multiple Instant Shabashee awards during my tenure.

AAPNA played a very crucial role in my professional journey. Working directly with Abhijit shaped me perfectly for my further endeavors which I am pursuing now. I was coming to work after a break of one year and AAPNA proved to be the best platform to restart my journey. Always grateful to Abhijit and entire AAPNA team for a wonderful experience which I will cherish my whole life.

In conclusion, my tenure as an Account Manager at AAPNA was transformative, setting the stage for continued success in my professional journey ahead.

Team Engagement

Team Engagement

January ignited the competitive spirit with the **Dumbbell Challenge**, where commandos showcased their strength and finesse in exercises like front raises and shoulder presses. Three commandos stood out in the competition and were awarded with the dumbbells to continue the grind! Concurrently, the **Leader's Coffee Sessions** fueled inspiration, while the FF platform hosted team-bonding games like Memory and Seven Stones.

February brought daily excitement with the **Game of the Day Challenge**, offering diverse quizzes and competitions to keep spirits high. "Challenge accepted, fun multiplied, when the team gathers to play seven stones,

March began with plans for **Resource Appreciation Day**, fostering camaraderie and recognizing the invaluable contributions of our Commandos- "Together, we rise!" Additionally, **Women's Day celebrations** were done, honoring the remarkable women within our ranks and beyond. "Empowered Women Empower the World!"

"Let the colors paint our journey!" Bringing **COLOR FIESTA HOLI COMPETITION 2024**, promising a kaleidoscope of colors - donning colors, joy, and laughter together! Stay connected for fun pics coming from Commandos this March.

Stay tuned for more exhilarating events and opportunities as we continue to thrive and grow together in EE!
