AAPNA Through My Eyes

Naeem Kureshi

AAPNA's virtual environment fosters a strong team, but there's nothing quite like meeting face-to-face! Recently, Gautam and I traveled to Delhi. Connecting with fellow AAPNAites in person brought a whole new dimension to our conversations. We shared valuable insights and learned a lot from each other. But the real win was strengthening my bond with Gautam. We discussed strategies to elevate our goals, making us a more focused and effective team. Overall, the Delhi trip was a powerful reminder of the importance of building relationships beyond the virtual world

AAPNA Through My Eyes

Sahil Sharma

From day one, AAPNA's exceptional onboarding by HR made me feel welcomed. The vibrant culture shines through virtual coffee sessions, connecting us Commandos despite the distance. AAPNA's dedication to fostering a cohesive remote work environment is truly commendable, making every AAPNAite feel valued and part of the family.

P Sindhu

AAPNA has an excellent work culture. The flexibility of working from home enhances my work-life balance, making it a genuine pleasure to be part of the team at AAPNA.

I want to extend my heartfelt gratitude to my Manager, Gautam Pattani, for his unwavering guidance in our QA activities. His availability and support have been instrumental in our project's success. Bhavana Sonkar's mentorship for Lead QA has been invaluable, shaping my journey and enabling me to fulfill my role effectively.

I also acknowledge the pivotal role of Raju, our Scrum Master, whose guidance has enriched my understanding of JIRA Boards and project management. His insights have been transformative.
On a warm note, I welcome Pankaj as a new QA Resource. Your presence adds to our team's strength. Together, we embody AAPNA's ethos of excellence, growth, and collaboration, making every day at AAPNA a rewarding experience.

Devang Rana

Being the newest member of the BD team, I was initially filled with nerves. However, Rishi and Gautam, my amazing managers, not only made me feel welcome but also became mentors, guiding me through my initial hiccups and helping me learn from my mistakes. Even regular meetings with Abhijit, our CEO, are a source of immense inspiration. His and Rishi's enthusiasm is truly contagious, and it's something I look forward to every day at AAPNA!

Tech Meet by JSS Step
(26th April 2024 at India Habitat Center, Delhi)

AAPNA has been part of the JSS Step Incubation center for years now. Being an alumnus of JCE, Abhijit Roy, CEO, AAPNA Infotech, was invited by Dr. Raghunandan, to set up our office at the incubation center. Since then, our time at JSS has been invaluable. It has not just provided us learning experience but also networking opportunities with fellow companies of similar size, through various platforms. Tech Meet conducted at India Habitat Centre was one such platform, which helped us showcase our products to other participating corporates and audiences. Here's sharing highlights of the meet.

Celebrating a Major Milestone! JSS STEP NOIDA commemorated its 20th Anniversary on April 26th, 2024, with the prestigious Future Tech Summit at India Habitat Centre, New Delhi. The event brought together alumni, government officials, mentors, investors, and corporate leaders, alongside innovative start-ups nurtured by the program.

A Showcase of Excellence! Our AAPNA Commandos - Sachin Tangoria, Anuj Mathur, Rishi Roy, Anil Garg, Chhaya Verma, Priyanka Khatter, and Neha Rawal - proudly unveiled AAPNA's flagship products - **KaryaKeeper, MeraMonitor, and FundooFriday**. Attendees were treated to thrilling gaming experiences on Fundoo Friday and had the chance to win exciting Amazon vouchers.

Excellence Recognized! AAPNA received the prestigious 'Good Governance Award - Scroll of Honour' for its unwavering dedication to ethical entrepreneurship. Abhijit Roy sponsored the Best HR Tech Pitch Award, clinched by Tanvi Jain, Founder & CXO of MyWays.

Enriching Insights! Anil Garg's thought-provoking discourse on Reverse Pitch Acceleration, particularly on Mera Monitor, captivated the audience. Rishi, Sachin, and our formidable Lady Commandos played instrumental roles in product advocacy.

An Unforgettable Event! Thanks to the infectious enthusiasm of our AAPNA Commandos, the summit became a cherished memory for all participants.

Securing Remote Software Teams: Navigating Security Challenges In the dynamic landscape of remote work, IT and security teams face evolving challenges to ensure the robust protection of software organizations. The proliferation of remote access points intensifies the need for comprehensive cybersecurity strategies.

Teams employ advanced endpoint protection, multi-factor authentication, and encrypted communication channels to thwart unauthorized access. Continuous monitoring and threat intelligence integration allow swift identification and mitigation of potential risks. With the rising sophistication of cyber threats, artificial intelligence and machine learning play pivotal roles in anomaly detection and predictive analysis.

Collaborative efforts between IT and security professionals focus on reinforcing employee awareness through training programs and emphasizing the importance of secure practices. As organizations adapt to evolving remote work norms, a proactive and adaptive approach to cybersecurity remains paramount in safeguarding sensitive data and preserving the integrity of software ecosystems.
