Carry Forward & Let Go: Reflecting on Our Incredible Journey!

Aryan Singh

2024 was a year of immense growth, both personally and professionally. It taught me the value of consistency, adaptability, and continuous learning. I'll carry forward the discipline and structured approach that helped me master new skills and navigate challenges with confidence. The year also taught me the importance of

"Believe you can and you're halfway there."

Carry Forward & Let Go: Reflecting on Our Incredible Journey!

staying curious and embracing opportunities that push me beyond my comfort zone.

As I step into 2025, I'm letting go of self-doubt and hesitation, making space for bold decisions and new possibilities. I aim to embrace challenges with a positive mindset, trusting my abilities and staying committed to my goals. Growth starts where comfort ends, and I'm excited to explore new horizons and reach greater heights.

Kartic Singh Rawat

2024 taught me resilience and the value of staying curious. I'll carry forward the habit of embracing challenges as opportunities to grow. Letting go of self-doubt, I aspire to nurture confidence and innovation in 2025—creating space for new experiences and learning in both personal and professional life.

Naeem Kureshi

2024 taught me there's always room for growth and lessons to learn. By embracing a growth mindset, I've learned to take ownership, be accountable, and stay responsible. For 2025, I'll focus on HOW and WHAT to improve, letting go of the limiting habit of asking WHY too often.

Mahesh Mitkari

2024 has been a year of resilience and growth. I'll carry forward my drive for continuous learning and embracing change while letting go of the need to be perfect and the self-doubt that held me back. Starting my journey with AAPNA Infotech, driving Mera Monitor's sales feels like a new beginning. In 2025, I aim to turn challenges into opportunities, forge meaningful connections, and make this the year of Mera Monitor.

Abhijit Roy

It is time for some Science Fiction –

Today, I see in reality, things that I believed to be “Science Fiction” while growing up. That’s the SPEED at which technology is evolving. “Artificial Intelligence” is at the fore front of this change, and the power that is ALREADY at the fingertips of everyone is MIND BOGGLING. To think that this is only the beginning, and the thoughts of what is COMING (within next couple of years), is both exciting and scary. To open your minds to the possibility, one needs to watch some science fiction, as today is the ERA that it is all coming TRUE.

So, lets buckle up, and let 2025 be the year of AI adoption for each and every COMMANDO @ AAPNA.

Rewards & Recognitions

AAJ KA BAAZIGAR

Mahesh Mitkari

- For his excellent work in driving Mera Monitor sales and getting lots of visibility for all AAPNA products.

Vinay Satsangi

- For his relentless energy and commitment to excellence embody the "Software Commando" spirit—tackling challenges with speed and precision, swiftly delivering a critical customer requirement within a week.

Neha Rawal

- For Outstanding performance in sales, growing confidence, multiple deals closed, and transitioning into a full-time sales role for greater impact.

WARRIOR OF THE MONTH

Shweta Shukla

- For meticulous planning, coordination & thoughtful arrangements that made the Leaders' Retreat'24 a success.

SPOT TEAM AWARD

Extraction Team

- For doing a fantastic job achieving the ambitious target of 1.5 million file downloads in just 2.5 months. Their unwavering commitment and AAPNA's commando spirit earned the client's trust and appreciation, leading to continued collaboration.
